A word from the manager..

"They can't cure '*jambes lourdes*' or the spots on your face but if you want to see a band that has the spirit to get you '*funking out in every way*', then Chicken Head are a must see. Still, if you're convinced there's nothing better in life than a Big Mac, Justin Bieber and going to bed before midnight then I'm sure there's one of those disco type things a few streets away.."

Hugh Jass - Manager and CEO Hairy Beaver Records
